

# MP210/310 Food-to-Energy:

A K-12/University Partnership to develop a Resource Recovery Program

Wed/Fri 11:00am-12:15pm

Variable 1-3 credits

- Work with CU and a local school district to encourage food waste diversion from the solid waste stream
- Explore beneficial uses of food waste for nutrient and energy recovery
- Develop and teach lessons in K-12 classes;
- Work with CU campus efforts to promote best food waste practices
- Help with Clarkson's anaerobic digester

Interested in working with students to develop a Sustainable Food Waste System?
