To Whom It May Concern,

Clarkson University students are required to have a COVID-19 test with RT-PCR molecular based testing. Unfortunately, we are unable to accept antigen or antibody testing platforms per recommendations from St. Lawrence County Public Health Officials.

COVID-19 testing must be performed within seven calendar days prior to your anticipated date of arrival. You must have a negative result in order to permit entrance to campus. Students with a positive test prior to arrival will not be allowed to be present on campus in person.

For more information, please contact the Clarkson Student Health & Counseling Center via [deanofstudents@clarkson.edu](mailto:deanofstudents@clarkson.edu).
